3. ***Summary of Proposed Action** (Briefly describe the proposed action)

On December 17, 2020, EPA approved the State of Florida's request to assume administration of a Clean Water Act (CWA) Section 404 program. EPA conducted its review pursuant to the requirements of the CWA Section 404 and implementing regulations. The EPA's approval is based on consideration of information provided by the State of Florida, comments received during the public comment period and public hearings, and information provided during consultation on Florida's request. Florida's Section 404 program for regulating the discharge of dredged or fill material into waters within the jurisdiction of the State as provided under CWA Section 404(g) will be effective upon publication of this approval in the Federal Register. The prepublication version of the Federal Register notice is available at the link below.
